Technology at work for your business

CONNECTING YOUR BUSINESS TO THE IT RESOURCES YOU NEED:

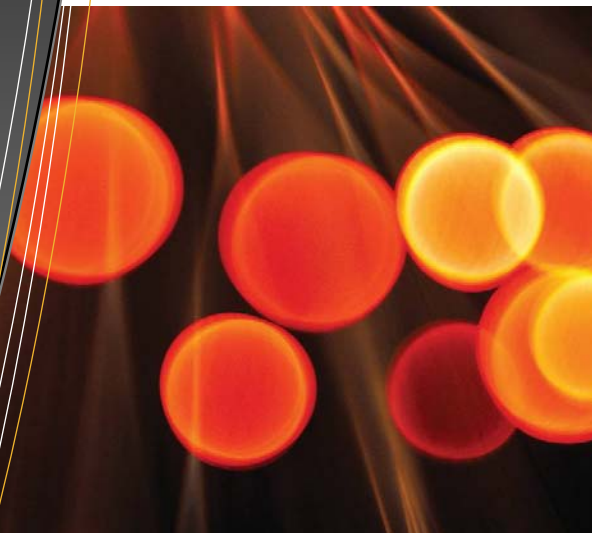

- **INFRASTRUCTURE** - solutions that maximize reliability and efficiency; the use of existing infrastructure; and cost effectiveness. Network IT Infrastructure solutions cover concept to implementation.
- **IP TELEPHONY** - a must for successful business today – delivering cost savings and productivity gains that cannot be achieved with traditional voice systems.
- **SECURITY AND PROTECTION** - secure your network and protect it from spammers, phishers, hackers and zombies. Layered security solutions to stop inbound and outbound messaging threats from Cipher trust.
- **MANAGED SERVICES** - comprehensive, cost-effective, customized services to meet your specific needs and allow you to focus on what you're good at.
- **SUPPORTPAK** - support your IT investment for a fraction of the cost of utilizing internal staff. Our skilled staff will visit your premises to review IT operations, check infrastructure, carry out maintenance, ensure ongoing back up and deal with any user issues.
- **FLEXIBLE** - Switches, wireless, wired, VIOP, phone lines, data lines, IT infrastructure, Cisco implantation, off site data backup, consultation, VPN, Email server setup, remote access for Schools, Banks and Small Business.
- **COST EFFECTIVE** - Able to provide custom future proof hardware and software solutions for your IT network needs that will fit your company budget without sacrificing the integrity of your information infrastructure.

WEB DESIGN & HOSTING SOLUTIONS

Low cost high quality design and hosting solutions for your small business. We can take care of all the things that you'll need to have your virtual business card up and running. Logo design, site graphics, hosting on dedicated servers without having to worry about site traffic usage restrictions.
